| 3 | B.Tech-Lateral Entry | B.Tech-Lateral Entry | 108 | 1.34 | 3 Year |

Infrastructure

The Lecture Halls at IMS are spacious and scientifically designed to ensure that each student has sufficient space, and each faculty member has the facilities necessary for addressing a large audience. In addition, each Lecture Hall is

equipped with specialized teaching aids such as LCDs & sound systems.

These Lecture Halls, therefore, make classroom teaching and learning an enjoyable and fruitful experience for the students as well as faculty members. Display boards have been put up in all the lecture halls, which serve as platforms for encouraging creativity and increasing awareness among the students.

Seminars and workshops are a regular and integral part of the course curriculum at IMS.

For these purposes, we have a seminar hall enough to accommodate a large number of students, spacious and equipped with all modern technical aids including LCD and sound systems.

This seminar hall is also used for student meets, guest lectures and screening of films on weekends.

Library is a pre-requisite for education for sustainable development at all levels of education. Library usage with the help of an educator is very motivated and ignites passion for student's learning. For an IT scholar, it is a visible source to all its extension services such as audio-visual aids, story hours, lectures, book exhibitions, pictures, newsreels, films, etc, for management education.

It is a known fact that the library helps strengthen collaborative research amongst industry, government and educational communities in the society and contribute to all life-long learning opportunities to students. From the orientation programme across the life-term of a student, library and its facilities are a constant knowledge pool for them and its usage is effectively cultured at IMS, Noida.

Robotics Lab

Artificial Intelligence Lab

Programming Lab

IMS Noida is equipped with state-of-art computer lab which consists of more than 210 networked computers. The lab remains open from early morning till late evening, six days a week. We provide extensive global exposure to our students through high speed lease line. Moreover, the campus is equipped with Wi-Fi system in all areas to facilitate the comfortable use of laptops and other equipment.

Hardware Lab

The IMS Hardware Lab is focused on specific technologies, new hardware knowledge and complete computer specification working. This lab is intended to dramatically enhance an IT student's complete structural knowledge of available and upcoming hardware offerings in existing markets and to open doors to new markets. This work is usually done in conjunction with a system administrator, faculty in-charge and student committee who will work with an external guide. The overall goal is to learn and grasp new best-in-class technology, both current and future.

After this lab work, students are eligible for CCNA certification & CCNP certification and can work as System Administrators, Network Engineers or can also be an IT entrepreneur. The main aim is to develop students into an IT professional where they can handle hardware projects independently. These projects are comprised of LAB infrastructure handling, AMC (Annual Maintenance Contract) of computers for individual, companies or educational institutions.

Web Design Lab

Purpose of the Web Designing Lab is to train students in Web Design, Web Development, Internet Marketing, Mobile Application Development and Graphic Design

Scholarships

There are many scholarships which are launched by the government of Bihar to implement good education system and to provide different type of benefits to all of the students who belong to a backward category or backward caste or economical backward caste in India. The scholarship which will be provided by the government of Bihar will help many of the students to gain good employment and education opportunities and they will be able to complete the education without any financial burden.
